What is Aerostructures Meetings Sonora?

➔ Aerostructures Meetings Sonora is BCI Aerospace's new general aviation supplier platform after 3 successful editions in Guadalajara, JAL.

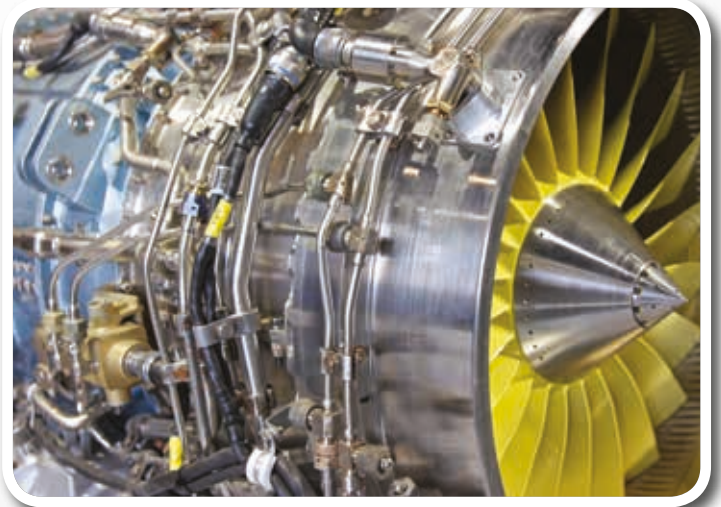

What is Engine Forum Sonora?

➔ Engine Forum Sonora is Mexico's only international business-to-business forum exclusively dedicated to aero-engines, turbines and other propulsion and power generation equipment.

➔ These two events will be a unique venue for OEMs, Tier 1 suppliers and contract manufacturers to connect through BCI Aerospace's matchmaking program.

Whether your applications are in the engine or the structure business, Sonora will be Mexico's supply chain hub.

“ The Sonora State Government is proud to host the third edition of Engine Forum Sonora, in association with BCI Aerospace. This Forum reinforces our leadership in the manufacturing of aero-engines and industrial gas turbines components. Our cluster is unique for its high level of integration; from casting, machining to special processes in a single location. This event is a fantastic platform for our companies and the international aero-engine and IGT companies to find business opportunities for the greater benefit of all the participants. Welcome to Sonora ! ”

Sonora State Government

The State of Sonora has a special division responsible for inward investment and economic growth.

The organization typically provides assistance programs to potential investors. It also promotes initiatives aiming at industrial and economic development.

Sonora has an actual competitive advantage in the field of propulsion and power generation equipment.

Sonora State Government **supports large corporations such as Rolls-Royce and encourages smaller manufacturers to settle businesses in the State** and integrate the growing supply chain, whether it is in the automotive, aerospace or industrial sector.

Sonora, which is located in the North West of Mexico, shares borders with Arizona and New Mexico.

BCI AEROSPACE

BCI Aerospace is advanced business events specialized division for aeronautics & defense business-to-business events. Established in 1996, it has grown to become the world leader in the business meeting market.

BCI Aerospace pre-arranges meetings for supply chain, procurement, engineering fabrication teams and contract manufacturers prior to the event. This is an outstanding tool to save time, meet the right people and discuss requirements and capabilities in just 3 days.
